

# ARMED AND DANGEROUS HOME-OWNERS TAX ARREARS

## ARMED AND DANGEROUS FIGHTERS ARE PLAYING AS HITLER FIGHTS FOR LITIGATES POLICY

Protests Held Desire For  
Peace, Would Sign Non-  
Aggression With All  
Nations Save Lithuania.

**BERLIN, May 22.** — Reichstag members today again  
blamed Europe's danger-franch  
armaments race squarely on na-  
tions victorious in the Great War  
which imposed the Versailles  
Treaty upon Germany. In an im-  
passioned address to the Reich-  
stag, summed into special ses-  
sion, he vehemently denounced  
other powers for violating the  
peace treaty's arms limita-  
tions, thus forcing the Reich to  
rearm.

Thunderously cheered as he pro-  
nounced his eagerly awaited ad-  
dress on foreign policy, broadcast  
to all Reichstag members, Hitler  
and Europe, the Fuehrer again  
protested Germany's fate for peace.

**NO WEAPONS COVETED.**  
"If Germany of today favors  
peace," he said, "it favors it neither  
for weakness nor cowardice. We  
desire every day for the sub-  
jugation of foreign powers."

Germany of today is immersed  
in the tremendous work of repair-  
ing the domestic damages. None of  
our subjects of a factual nature  
will be completed in 10 to 15  
years. None of our tasks of an ideal  
nature can find its fulfillment be-  
fore 50 or even 100 years.

"What else could I desire but  
quiet and peace?"

**ATTACKS VERSAILLES.**  
Declaring the present "veritable  
mania of collective and individual  
effort, the spiritual progress of  
the American President Wilson,"  
Hitler said the Versailles treaty  
pronounced the death sentence up-  
on "the collective, co-operative ef-  
forts of nations."

In that treaty, he declared, "there  
was not a clause according to  
victors and vanquished, in place  
of equal rights, differentiation be-  
tween those entitled to rights and  
those without rights."

**WOULD BUILD SECURITY.**  
Germany nevertheless is willing,  
the Fuehrer told the legislators, to  
sign non-aggression pacts with all  
European nations save Lithuania,  
"not because we wish war there,  
but because we cannot enter into a  
political agreement with the most  
primitive laws of human society."

"We are ready, through non-ag-  
gression pacts, to begin that  
feeling of security from which we  
also gain."

The Nazi leader refused, however,  
to sign non-aggression pacts with  
Lithuania, "because we must con-  
sider pacts reinforced through  
obligations of mutual assistance,"  
"which, from the viewpoint of our  
policy, are as well as politically  
and collectively, are impossible for  
us."

**ATTACKS 'ALLIANCE.'**  
Attacking the "military alliance  
between France and Russia as an  
element of grave danger to  
security," Hitler said the "clear and  
really valuable mutual treaty of as-  
sistance" of Europe, namely, the  
"Locarno pact," he said.

"The conclusion of pacts of as-  
sistance that have become known to  
us, we see a development which  
differs in no way from the forma-  
tion of the former military alli-  
ances."

**ENEMY OF BOLSHIEVISM.**  
He said Italy's Germany would  
not join any present security sys-  
tem which might compel Nazis to  
fight on the side of Communism  
because today as Bolshevism "dis-  
franchises Germany within its scope, we  
are its bitter and most faithful en-  
emies."

After his denunciation of the  
Versailles treaty Hitler said, "Not  
only do other nations not disarm,  
but on the contrary they complete  
and improved and thereby ran-  
dered their armaments extraordinarily  
counter to the intentions of Pres-  
ident Wilson but also, according to  
the opinion of the most prominent  
representatives of the other side,  
violated the obligations of the Ver-  
sailles treaty to which they have af-  
firmed their signatures. For this  
there was no excuse."

**NOT TAKING LEAS.**  
Germany will not put forward any  
plan for peace, Dr. Fuehrer  
declared, because "it is not a plan  
without a guarantee of constructive  
peace, for their rejection may be re-  
sented as a threat."

"Had my constructive plan of  
200,000-man armies been accepted,"  
he said, "many would today be  
the best formidable and many bur-  
dened."

He was bitterly sarcastic in his  
remarks on those who would  
in Germany's armaments cause  
fear and war, "because they would  
sincerely reason to hope for peace."

**ALL ARMAMENT ARKIN.**  
"If armaments threaten peace,"  
he declared, "then they do this in  
the case of all states."

"It will not do for one group of

WIFE'S ADMIRER**

Muir, 64, charged with the murder  
of Edward Olson, in alleged  
murder of his wife, was acquitted  
yesterday.

The jury in the court presided  
over by Mr. Justice W. C. Ives,  
declared Muir was not guilty.

Olsen was stabbed to death dur-  
ing a drunken brawl in a down-  
town apartment house on the night  
of March 2.

day that Germany, far from taking  
up the rest of the Versailles Treaty  
as described in authoritative British  
papers last night as his most im-  
portant contribution to the peace of  
Europe.

Almost equally important in the  
official British view was his de-  
claration of loyalty to the Locarno  
Treaty, which binds Germany, France,  
Italy, Belgium and Great Britain  
to preserve boundaries in western  
Europe.

## Better Looking Business Now Due

Who said business is not looking better? Certainly this is  
counter evidence in the person of Miss Virginia Kimpber, a  
junior at Texas Christian University, Fort Worth. She has just  
been named "Miss Business of 1935" by her fellow students in the  
department of business administration at the school.

## THREE SPEED RACERS DIE AT INDIANAPOLIS

Stubblefield, Hanon and  
Whittaker All Succumb  
to Speedway Mishaps

**INDIANAPOLIS, May 22.** — If W.  
"Stubby" Stubblefield and his  
riding mechanic, Whittaker,  
both of Los Angeles, were killed  
last Tuesday night, May 21, when  
the race car was hurtling  
toward the finish line, the  
fact that northern plains carry  
portions under the wheels.

Under the present agreement, the  
city provides the required buildings  
and equipment for the provincial  
government, the land and the national  
department of defense had no  
objection to the work being ap-  
proved by the method proposed,  
the engineer stated.

Death also took Stubblefield  
the wheel from Johnny Hanon, 21-  
year-old race pilot of Morrisville,  
Pa., at the Indianapolis motor speed-  
way race May 21.

Hanon was making his first turn  
around the track in a car which he  
hoped to drive in the annual 500-  
mile race during the annual 500-  
mile race May 30.

On the track, Stubblefield, the  
mechanic, was taken from the ma-  
chine severely injured.

The day's death raised the speed-  
way death toll to 21, since racing  
began at the track in 1930.

ager of the Fairburn Mining Co., ar-  
rived in Edmonton Tuesday after-  
noon in a Canadian Airways Ltd.  
plane from Fort McMurray.

in the new field generally.

He said he was tired after his  
trip, but would later tell of the  
development work planned by his  
company.

## COOKING LAKE AIRPORT WORK TO BE SPEEDED

Loss of Traffic Will Result  
If Scheme Not Hur-  
ried Along

Possibility of ruining the com-  
pletion work on the city's airport  
base at South Cooking Lake with  
the aid of machinery, instead of  
continuing the present method of  
hand labor, was given serious  
consideration Tuesday by the city  
finance committee, which decided  
to table the proposition until the  
base has been inspected by alder-  
men. Members of the committee  
were scheduled to visit the site  
Wednesday morning, and commis-  
sioners were instructed to make a  
further report to council in this  
connection.

Ready for the proposed speeding  
up of the work is the fact that the  
city looks forward to a season of in-  
creased revenue from airplane traf-  
fic, some of which will be lost if  
facilities are not ready. It is esti-  
mated that Edmonton receives busi-  
ness from air traffic of between  
\$100,000 and \$200,000 a year.

City Engineer A. W. Hildner, ex-  
plained that under the present  
method of hand labor the base  
would cost \$5.25 to complete, and  
the work could not be finished until  
late this year. On the other hand,  
if machinery were used for doing  
heavy leveling on the 150,000 sq.  
ft. project could be com-  
pleted within two or three weeks  
at an added cost of the \$5.25  
figures, of \$300.

Under the present method, the  
fact that northern plains carry  
portions under the wheels.

Under the present agreement, the  
city provides the required buildings  
and equipment for the provincial  
government, the land and the national  
department of defense had no  
objection to the work being ap-  
proved by the method proposed,  
the engineer stated.

"ADVICE" WORTH HEEDING

London dispatches say Great Britain and France will insist upon their right to advise Italy in regard to its treatment of Ethiopia. Which is a diplomatic way of saying they do not approve of the war of conquest that is apparently in process of being launched against the African kingdom.

That may not halt Mussolini's plans, since he knows neither Britain nor France is likely to take up arms in Italy's defence, but unless conditions in Italy are so bad as to make a foreign gamble necessary, it may cause him to think seriously about the long run. Italy will be breaking with the victors. These two friendly powers, the only friends Italy can count on for support in resisting Hitler's designs on Austria. Germany's military might may come to the mind of Hitler as he looks at the map of Italy's long coast line.

QUITTING THE COUNTRY?

According to Washington dispatches, the Dookhobors are preparing to sell out and leave Canada for the Chaco region of Paraguay, a region where war is likely to be much diller, is raging and likely to rage for some time. The reason is said to be that the Dookhobors are not allowed as large religious liberty in Canada as they think they should have. They are not allowed as large religious liberty in their nation including the right to let their children grow up in ignorance as to what is going on in the world. They want to accommodate them in that matter, which Canada won't.

The Dookhobors came to Canada more than thirty years ago, with nothing. The communal assets they are said to be turning into cash with which to locate themselves in their new homes. They are estimated to worth some \$100,000. They will not turn this up to empty-handed, as the case. Canada has at least done well by them in money matters, as they have done well by themselves.

If, despite this, they are bound to go, that is their privilege. They are probably regret the decision later, which Canadians seem to all likely to do. As Peter II is now out of jail, and the sale of the property is reported to be proceeding, they may be able to prevent the migration getting under way without delay.

\$480 A YEAR

Some gentlemen whose names have been written in the scroll of fame through the investigations of the Stevens committee must surely be interested to know that they have been disclosed by relatives since the death of Lawrence of Arabia. "His chief possession was his cottage, Lawrence's cottage, which cost only \$100 a year. He had refused to take any more."

The man who knocked one of the enemy countries out of the great war, and smashed the plans of the Turks to invade the Moslem world against western civilization, was content to live on \$480 a year when he could have had wealth for accepting it from a grateful country.

Some of Canada's tariff-made monopolists upon whom the committee turned the spotlight have been ordered to pay back \$100,000, by squeezing the producers of materials, robbing their employees, and gouging their customers. They have dodged income taxes to amounts on which \$480 would not begin to pay interest.

Of course they will not understand Lawrence. By their standards he must be a fool. If one of these gentlemen had chased the Turks out of Arabia he would have wound up the affair by giving the money to his wife. He would have been using the Arabian's good deal better than he and his kind have been treating the people of Canada, upon whom they have conferred no worse a matter except telling them from any temptation to over-act.

If Canadians have anything of the spirit of Lawrence they will proceed to treat these industrial Turks as he treated the original.

## THE RELIEF ISSUE

Belief men who refuse to work out of the family allowance are being sent off the list, in keeping with the decision of the city council. That is to say, the family allowance is cut down by \$1.68 per week to \$5.00 per week, provision for the wife and children being continued on the usual scale.

The theory of course is that the man will not eat, unless he can earn some money at odd jobs, or that the family will not let him eat. Whoever thought up that bright one has a good deal to learn about the matter. What the procedure means is that the distressed family will continue to share their reduced allowance;

## The Passing Show

By J. S. COWPER

The grand old institution of marriage has received severe bumps from its friends and adherents in the past few years. The limit at present is the number of hours per week necessary to earn \$3.75 in the case of a man who has a wife and no children; there are children, he is allowed to earn 90 cents in addition for each.

The men claim the amount is not sufficient; that they should be earned fifteen per cent more than the present allowance. They make two other demands, but this is the first and principal one. The dispute thus works down to a question of whether the city can afford to have fifteen per cent more work done, and pay for it, with the assistance of the province and the Dominion.

The city's proportion of the added expense would be five per cent, plus administration costs and material costs.

That there is this extra work needing to be done does not require any argument; one glance at the streets is enough on that point. And it will be the same if the city does not agree. The city will probably be down when the gross costs will be higher. That they will ever be lower there is no prospect.

Since the city is capitalizing \$250,000 of relief costs, why not capitalize the small additional amount necessary to give the men the opportunity to earn the fifteen per cent extra, when no one with a knowledge of living costs can doubt they need it? If a settlement could be made on that basis, the other could be negotiated in a friendly atmosphere—and in circumstances neither so absurd nor so potentially dangerous.

POEMS THAT LIVE

A WHITE ROSE

The red rose whispers of passion,

The white rose speaks of love,

O, the red rose is a falcon,

And the white rose is a dove.

But I send you a cream-white rosebud

With a flush on its petals lips.

For the love that is purest and truest

Has a kiss of desire on the lips.

Newspapers tell of the laughter in court as the "brother" who is not practised in it; its only practice by those who don't believe in it. We can pass over Mae West's recourse to court to contest the claim of an actor who says he married her long ago. The actor had written out legal notice, because it would affect Mae's box office value as the great exemplar of sex appeal. The actor is now in jail. Besides, it would fix her age as 42. There are better cases to quote.

## Some Symptoms of Prolapsus

By DOCTOR FRANK McCOY

In many patients prolapsus may cause many symptoms which produced marked discomfort. The most outstanding symptom likely to be some form of indigestion. The patient complains of excessive gas, belching, a heavy, dead feeling of fullness in the stomach or "nervous indigestion." If the stomach is severely protracted, the patient is unable to eat, and the food is retained longer than it should be and the patient says his food feels like lead.

Because the patient fails to get the food from his stool, he is underweight and finds it difficult to make a gain in weight and keep it. If the large intestine is prolapsed, sluggishness develops. Spasmodic colitis occurs in a certain percentage of cases.

The entire lower abdomen appears flabby and soft because of poor circulation in the lower abdomen usually sticks out. The patient is slender, the body noticeable for lack of fat, and the muscles are thin and develop a certain percentage of cases.

Other symptoms are: The patient tires quickly with a consequent lack of endurance; headache is commonly present; poor appetite, bloating, low blood pressure, indigestion, nausea and irritability of the colon may be noted. The patient may also mention cold hands and feet, a general feeling of depression. In some cases the sagged organs cause constant rubbing on each other, the surfaces may grow together in adhesions. This condition is called "stagnation" and then the organs in abnormal positions adding further trouble to that which has already developed.

The patient with prolapsus may be bothered by special symptoms which he terms "nervousness." He usually has a hyper-sensitive nervous system and finds it hard to adjust himself to unexpected stress. He may develop a constant anxiety about his health and watches each symptom with careful attention. Beyond this, the patient is a nervous type, with a digestive tract is too responsive to stimulation.

The patient is therefore disturbed by happenings which are not a hindrance to a normal person. This fact is not lost upon the patient who says that "very little thing seems to affect me so much." Strains, excitement, social gatherings, a street of a new job may be sufficient to cause an upset in the entire digestive apparatus. The patient may develop a "nervous" type, with a digestive tract is too responsive to stimulation.

## ALL GERMANS OF TWO SEXES NOW CALLED

### Both Men and Women Must Do Army Work Is Edict

BERLIN, May 22.—The government issued a law last night compelling all Germans between the ages of 14 and 45 to serve one year in the army. It is effective at once. Persons over 45 will form reserves and "staying war veterans" over 60 years of age will be called to the colors.

The new law, which is a modification of the old law, will require all Germans between the ages of 14 and 45 to serve one year in the army. It is effective at once. Persons over 45 will form reserves and "staying war veterans" over 60 years of age will be called to the colors.

### Jews BARRIED

Jews apparently will be barred from military service except in special cases.

One year of labor service is a prerequisite for military service, but young Germans will not be called to arms before the age of 20.

Catholic clergy will wear rank of sub-deacon and higher; and persons declared physically unfit after an examination, will not be drafted.

### REGULATE JEWS

"Aryan descent," the law asserts, is a prerequisite for active military service.

Exception to this rule will be made by a special board. Aryan members of the army and reserves were forbidden to marry non-Aryans and obligations of Jews during war will be subject to special regulation.

EXPATRIATES ALSO Germans for foreign citizenship in addition to their German citizenship must serve in Germany, even if they have had military training in a foreign army.

Germans living abroad must begin their terms in the Reich. The beginning of their period can be postponed for two years and only in very important cases will political and religious objections be taken.

Persons sentenced for political crimes and persons who have lost their citizenship will not be drafted.

**COMMENTS**  
This junior game was the first of the season at both of Monday's fixtures. They were postponed. Considered their game well under control as Stevenson turned them over the plate. Incidentally he uses neither hand to pick with.

Home runs were counted by Stevenson for Rogers Drive, and Early for Avenue News. Zichlinski for Snowflake Laundry. Burton for Young Bay and C. O'Connor for Rossdale.

That was a mighty battle at King Edward Park. It was an exciting game, drawn out that darkness forced a called game with a ten all in the ninth.

Touffraux have done well this week with two wins in as many nights.

Avenue News came to life last night on the last part of the game and the Snowflakes had to bring on Eard to halt their rally so they could hold out a one run margin for a win.

**WEDNESDAY GAMES**  
Monarchs vs Hudson Bay at Victoria High School.

Hargrove vs. Strathcona Hotel at King Edward Park.  
Rovers vs. Beverley Juniors at Exhibition Grounds.

# Knockouts Feature First Ring Championships

Jack Dempsey, Right and Stanley Lewis Put On Grappling Act.

## EDMONTON BULLETIN SPORTS

EDMONTON, ALBERTA—WEDNESDAY, MAY 22, 1935

Sidney Bress and Mrs. Bress Are Happy On Arrival At Gosham.

### Old-Timers Are Happy in Jack's New York Cafe

Two Dominion wrestling championships met in Edmonton, the champions receiving their share of applause from every part of the sporting boulevards but a compliment is still to be paid. To the genial and soft spoken Mike Cutler, give this tribute and one who, although well back of the scene, felt greatly in the arena enjoyed by the local wrestling in the Dominion championship tournament held at the Arena Menade.

Mike, himself quite a grappler, trains daily an unlimited number of wrestling aspirants at the gym. . . . The boys spent by Mike working out with these boys are long, but happy ones, and his training has been greatly successful. . . . During the past few years Mike has turned out champions like Pat Young, heavyweight champion of the Dominion, and Jack Young, another Dominion champion, representing the University of Alberta, while Gordon Garry, Jack Dusevsky, Jimmy Parks and others of Mike's proteges featured well in the ring.

To Mike there is no other art of the amateur than that of wrestling. When speaking of the power of the power, Mike himself, a champion wrestler, and Mike has been of even greater benefit to his "trainees". . . . Last year he won the Empire Games at London, England. He won two bouts, but lost in the final. Mike could find no other reason than that they didn't feed the enough, most certainly Mike's training was on his best.

If you had been watching Mike Cutler, clearly at the Dominion meet Monday one could understand just how happy people can be—Mike certainly was for "his trainees" had won, and decisively.

Mike's proteges, however, in Montreal, is just one example of how many of the Dominion wrestlers of this city have in the past won the Empire Games. Not in any other city in the Dominion can it be boasted that the "local" wrestlers have won the Empire Games. Cutler and his proteges have won the Empire Games in London, England, and in Montreal, Canada.

Last night the fans of the golden-gloved aspirant met on one or two or even four, but 25 hours as the evening boxing match and final exhibition. Many of this city's entries were eliminated, but they will Jimmy Chapman punching his way to higher honors.

### Cricket

The Cricket League game, played last Saturday, was a very successful one. The weather was ideal, and the game was played in front of a large crowd. The home team, the Edmonton Grays, won the match by a large margin. The game was played in front of a large crowd, and the weather was ideal.

### Large Band Lethal Punching Ring Men Show Fine Action

Several Local Scrappers Survive First Heat But Jimmy Chapman Only One to Stay Past Second Go

Eight clean-cut knock-outs and one technical feat featured the opening performances of the Canadian Amateur Boxing tournament at the Arena Tuesday night as the Dominion's leading contenders for title laurels displayed their wares in 20 bouts. From the curtain-raiser to the final bout the lethal fisted gents provided the small but enthusiastic crowd of spectators with a night of action. From going to ring each round the battlers threw every thing they had at each other in their bids for victory and there was not one uninteresting fight during the evening.

Several Edmonton scrappers managed to survive the first heat of their respective classes but Jimmy Chapman, local flyweight was the only one to get past the second go. George Schmaltz, hard-hitting lad from Kitchener, stole the show with his performances in the welterweight division. The Ontario champion opened his quest for a Dominion crown with a knockout victory over Max O. Steel of Raymond in the second round and in the final bout of the evening hammered his way through a bloody duel to a decision over George Law of London. In both of his fights, Schmaltz really showed plenty of punishment and was the aggressor all the way.

### CHAMPION STARTS LOCAL TRIUMPHS

Jim Chapman, of Edmonton, scored a clean-cut win over Ken Robson, of Regina, in the opening bout of the evening card. Chapman proved a great counter-puncher and was easily a deserving winner. Both boys were flyweights. The second all brought together two of the best of the class. Jack Segler, Armstrong of Toronto and Jack Hinton, of Toronto, fought a hard-fought and exciting bout. The Toronto boy had little difficulty in disposing of the Canadian contender on points, but was given a safety fight all the way. The third of the Quilley Club, Edmonton, whipped Bob Barker, Canadian, Scottish, Victoria, by decision in another 112-pound bout. Barker showed a lot of courage by carrying on even after being hit badly in the third round.

### TROLL IS DEATEN

Max Robson, of Montreal, punched his way through the first round of the evening card. He was given a safety fight all the way. The third of the Quilley Club, Edmonton, whipped Bob Barker, Canadian, Scottish, Victoria, by decision in another 112-pound bout. Barker showed a lot of courage by carrying on even after being hit badly in the third round.

### INTERESTING DUAL

Angelo Colura, of Tiger A.C., Hamilton and Wally Cate, of Montreal, put a highly interesting dual before the ladies' packed the dressing room in the western Ontario night.

### GROGGY BATTLE

Dick Carrington, of Calgary, had a fine win over Pat Young, of Edmonton, in their 112-pound bout.

### Hailed New Lenglen

Hailed as another Suzanne Lenglen, following her smashing victory in British tennis competition, Suzanne Anita Liana of Santiago, Chile, gives promise of becoming the world's greatest woman tennis star. She defeated Kathleen Stanmore, third-ranked British player, and other notable competitors. Like the famed Suzanne the young one has multi-like accuracy and clever tactical shots rather than the smashing speed and attack of a Helen Wills Moody.

### CHINOOK RACES GET AWAY TODAY

Calgary, May 22—Seven well-fitted sows will meet the fans at the opening of Chinook Park this afternoon. In the entrance there is a race with less than ten starters and a total of 82 horses are named in the seven events.

### POLLARD BEATEN

The welter bout between George Law, of London, Ontario and Billy Pollard, of Edmonton, was stopped after two minutes and 18 seconds of fighting in the second round, a technical knockout giving the win to Pollard.

## Edmonton's Entry Places Second As Dewar Sets Pace

Mary McConkey Finishes Second in 4th Yard Final—Two Boys' Records Are Also Shattered

WINNIPEG, May 21.—One woman's record and two boys' records were smashed in the backwash left by the churning feet of Dominion natators as the Canadian Amateur Swimming Association swimming and diving championships opened here tonight.

### MCCONKEY RACES WELL IN FINALS

Mary McConkey of Edmonton twice gave Phyllis Dewar a great battle for honors in the 400 yard final, placing second in two heats and the final. Although Miss McConkey placed second to Miss Dewar, who incidentally shattered the record, the Edmonton entry put up a fine race and led the starry Marion Moffatt of Vancouver to the finish.

Phyllis Dewar, transplanted queen of feminine mermaids from Moose Jaw, breaking the existing records 440 yards in 5:40.3 with a 1:22 performance in the final.

Harold Whitlock of Hamilton, Ontario junior freestyle champion, won the 100 yards Canadian title in 1:17.3 seconds, failing to equal the new record he hung up in winning his heat. The old mark was 1:18.5, and Whitlock ploughed through the century exactly two seconds faster. Bruce Duffield, Toronto, was second to Whitlock in the record-breaking heat, but in the final, Archie Byers of Vancouver nosed out the Toronto boy for second place.

### TWO SECONDS BETTER

Byers established a new record for the 100 yards junior boys' breast stroke of 1:26.2 seconds better than the old mark, in winning a three-way duel with Mel Grey and Wally Simmons of Winnipeg, who finished in the order named.

Robert Pirie of Toronto showed the way to a large field in winning the 440 yards men's Canadian free style championship, felling by one second second rival the Canadian record. This race was a beauty to watch, and developed into a battle between three Roberts. Toronto's Robert headed Robert Hamilton of Winnipeg to the tape, and Robert Hoger of Vancouver finished a few strokes behind the local boy in third place.

### FINE RELAY TEAM

University of Minnesota's crack relay team enjoyed a surprise into the opening night's events by beating a pair of powerful teams from Toronto and Winnipeg in the 400 yards men's relay for the Murray Hannah trophy. The Minnesotans assumed the lead at the gun and despite a spirited challenge by Pirie and Hamilton in the closing stages the Americans held enough left to stave off the bid to win in 4:24.5. Toronto were second and Winnipeg third.

Second preliminary of Vancouver proved superior to her field in the 100 yards junior girls' Canadian free style championship. The Vancouver miss had her steepest battle with Shirley Stewart of Winnipeg, the pair placing one-two in their heat and the final. Roberta McLeod won her heat in 1:11.15 to 1:13.15 in the final, but the Vancouver girl was too good to be denied the limit before yielding, coming in a close second.
